

**Position:** Apprentice Marine Electrician

Join a growing company with a passion for helping boaters enjoy the water. Work at the water's edge in one of Bluewater's Metro Vancouver locations and become part of a dynamic work environment and vibrant marine community.

We are a marine service company specializing in upgrade, repair, and maintenance of recreational boats and yachts. We are currently seeking an Apprentice Marine Electrician to join our team to become a red seal Electrician through a combination of on-the-job apprenticing and four terms of BCIT classroom learning. The apprentice will develop skills and become a certified technician working in the experience in the following areas:

- AC and DC generators, 4kW - 100kW
- 12 / 24 Volt DC power systems
- Single / three-phase AC systems
- Solar charging systems
- Diesel engine electrical systems
- Automated controls, PLCs
- Marine navigation systems including data communication, PC based navigation software
- NMEA 2000 compliant data communication networks
- Satellite communication and television systems
- Marine security and monitoring systems
- Watermakers (desalination machines)

Applicants with experience working closely with HVAC, hydraulic, and plumbing systems is considered an asset.

An ideal candidate will have experience in the Marine Industry and have already begun their apprenticeship. However, we welcome resumes of those with a passion for boating or experience in another trade.

Keys to success with Bluewater Rigging are

- A desire for a long-term career
- Solid work ethic
- Professional attitude
- Ability to complete tasks in a safe and timely manner
- Willingness to work in a team environment and;
- Valid BC driver's license and clean driving history.

Our company offers a competitive salary based on experience and a medical benefit plan.
